

A Legacy in Stone at the Veterans' Memorial Park

Legacy Stones are solid granite stone inscribed with the names of persons whom you wish to recognize and honor with a profound and lasting tribute. Legacy Stone purchasers can also submit information to a registry. The registry will hold individual histories about each of those for whom the stones have been placed. Those histories can contain photos, letters, stories, news-clippings, poems and/or thoughts by or about the honoree. It is the Stone, combined with the pages of the registry, which create the true legacy.

Reflections from Legacy Stone participants: "This was the best birthday present I've ever received." • "We're so glad to be able to pay this tribute to our parents while they're alive." • "Twenty people in our family pooled together to buy this stone." • "He made us promise that if anything ever happened to him, we'd get him a Legacy Stone." • "Now he will never be forgotten."

Legacy Stones are: For veterans and non-veterans, for individuals and organizations, placed in celebration of life—past, present and future, perfect gifts for family and loved ones.
